

1 A4 Container

What you need

On the hob

Straining into the container

Set Gelli plate

Set Gelli

Gelli plate

Ingredients

(42.35) 6x 12 sachets of gelatine powder (not leaf)

(200) 340ml glycerine

(200) boiling water

Microwave Jug

Silicone baking tray 7" square or same size tube with clingfilm

Steps

- 1) Place 340ml boiling water in a microwave jug.
- 2) Pour 6x12 sachets of gelatine powder into the water stirring continuously.
- 3) Add 340 ml glycerine and stir well.
- 4) Have ready a silicone tray or cling film -lined tub, place on a tray on a flat surface.
- 5). Microwave mixture for approximately 2-3 minutes until the mixture is hot and thickened .
- 6) Stir well and pour into the tray or tub through a pair of "footsie "tights pulled across a pyrex jug. Take GREAT CAUTION . The mixture will be extremely hot and your tray or tub may be unstable .
- 7). Skim off any froth and discard .
- 8) leave on the side to set . Then pop in the fridge to chill for 10 minutes before step 9.
- 9) Remove , run a knife around the edge and keep any off-cuts for next time .
- 10) Wrap gel plate in cling-film to keep clean .
